Prof. Erik Stålberg

Prof. Shin J Oh

Prof. Jun Kimura

Prof. Toru Yamada

~Message from the President~

Masahiro Sonoo

Professor and Chairman, Department of Neurology,
Teikyo University School of Medicine, Tokyo, Japan

Dear Friends and Colleagues:

On behalf of the Local Organizing Committee, we are very honored to host the 48th Annual Meeting of Japanese Society of Clinical Neurophysiology (JSCN) in “Odaiba”, Tokyo, Japan.

This is the first attempt to partly open our JSCN meeting to overseas participants. We will have English programs for the first two days, 8th and 9th November. World renowned guests, Prof. Erik Stålberg, Prof. Shin J Oh, and Prof. Jun Kimura, will give us lectures and live demo presentations of their techniques. Some more Japanese experts will also have similar English presentations. We will also have an English symposium on EEG in commemoration of 90 years since Berger’s discovery of EEG waves, including Prof. Toru Yamada as one of the speakers.

“Odaiba” is the waterfront of Tokyo, a near-future town. Access from Haneda or Narita Airport is good. Tokyo City Center and Tokyo Disney Resort are also near by, and you can enjoy every entertainment of Tokyo Metropolis and also traditional Edo, the place of Shogun.

We will open overseas application sites in due time, but please feel free to contact us to the e-mail address on the top page.

We heartily welcome you to JSCN2018Odaiba!!
